

# Nordic Testbed Network

Supporting digital transformation in the Nordic bioeconomy

Digitalisation plays a vital role in the rapid development of the Nordic bioeconomy. Access to **cutting edge platforms for development, so-called testbeds**, where new digital knowledge and technology can be developed is fundamental. Managing a testbed is however a complex task.

To facilitate the development of new and existing testbeds, the Nordic Testbed Network aims to **unite and strengthen testbeds** aimed at supporting the digital transformation of the bioeconomy.

The Nordic Testbed Network is managed by **Nordic Forest Research** and **Nordic Agri Research** and aligned with initiatives such as the North Digital Declaration and the Nordic Bioeconomy Program.

Facilitating knowledge transfer, allocating seed money, running Nordic projects...

**What do you want the network to focus on?**

Join us in setting the vision and structure of the Nordic Testbed Network.

## WORKSHOP

November 12, Malmö

- WHEN:** November 12, 10-14 CET. Coffee and registration from 9.30
- WHERE:** Studio Meetingpoint, Nordenskiöldsgatan 24, Malmö, Sweden
- FOCUS:** Vision and structure of the Nordic Testbed Network

### AGENDA

- **Inspiration talks** – what's the latest in the digital bioeconomy?
- **Testbed presentations** – get to know testbeds engaged in the digital transformation in the Nordic bioeconomy.
- **Setting vision and structure for the network** – together we discuss and decide on vision and structure for the network.
- **Allocating seed money** – joint discussion on how to allocate existing funding for supporting the digital transformation in the Nordic bioeconomy\*.
- **Networking** – meet Nordic stakeholders from public and private sector.

\* Based on the workshop discussions, the reference group takes the formal decision on how to allocate the seed money.

**RSVP** to Maria on
