CALL Antibiotic Resistance: Apply for funding until February 15th

OPEN CALL: We have an interesting subject and we are so happy about the cofunding by the Swedish Research Council, so we have prolonged the application period! Our theme of the call is how to reduce or quit using antibiotics and avoid resistance. Apply until February 15th!

[Call details](#)

Carbon storage in soil effective for mitigating climate change

NKJ and SNS have contributed to developing knowledge about carbon storage in soil and about methods for modeling and emission calculations. Now the report and a brochure are published on the NKJ website!

[This is what we learned!](#)

Please forward the newsletter!

We want more people to take part of our calls and to learn more about the NKJ activities. You are most welcome to forward this newsletter to anybody who could be interested in research, climate, agriculture, reindeer husbandry and everything else that NKJ engage in!
