New call for networking proposals will open soon

The NKJ board has decided to make a new call for networks in agriculture and climate. There will be four themes: soil as a carbon sink, agriculture in extreme weather, sustainable protein and Arctic agriculture and climate. We will get back to you with further details!

NKJ proudly presents: Soil as a carbon sink

NKJ has, together with SNS, dived deep into the question how we can use the soil for mitigating climate change. Our report is now available for you, and if you want to have a quick look we have made a brochure for you. read about the Nordic cooperation in the issue [here](#).

Last chance to put your network together

Our call for networks in antibiotic resistance is still open. Submit your application at the latest September 30th and we will find out how low or no utilization of antibiotics can give positive effects on animals, food and environment. We can also help to connect you to the right people!
