### **Extra focus on plant health and alternative proteins**

We can change the future – and we will, with your help! We fund your networking activities if you can come up with scientific based knowledge for a better future. Special focus this time is plant health and alternative proteins, things really at the edge of environmental development in a close future. But if you have other interesting issues (in agriculture and food) to work on together with Nordic colleagues, don't hesitate to apply!

### **2019 an active year has past**

2019 was a busy year, we have had a special focus on alternative proteins, extreme weather and a lot more. Our networks have also been active in their special areas of interest. We want to share it all with you - just click below:
