We are into reindeer husbandry – together with you

How is reindeer husbandry affected by climate change and land-use change? We know the climate in the Arctic region is changing rapidly. NKJ wants to facilitate cooperation over national borders in the Nordic region to increase knowledge and effectivity in the reindeer husbandry research. Apply for funding for your network in reindeer related subjects latest November 21, 2020 at 24:00 CET.

NKJ engage in gender equality in the bioeconomy

A new network, funded by the Nordic Council of Ministers through the Nordic Information on Gender (NIKK), Nordic Forest Research and NKJ will explore the impact digitalisation can have on gender equality in the bioeconomy. Follow NKJ in social medias to get all the news from the network!

Promising first online matchmaking day

We have conducted our first matchmaking day online! With help from Malin von Essen, we think it was a success! In focus this day was reindeer research in the Nordic region. If you want to see the presentations from the day, follow the link!

New NKJ networks for Nordic climate and food

NKJ has granted research networks related to agriculture and climate, an urgent and important issue in the Nordics as well as internationally. We also have new networks exploring plant health and alternative protein sources. Above you can read more about our open call at the moment, with focus on reindeer husbandry.
