33 000 seed samples secured for the future

Nordic genes are secured for the future! One of our NKJ funded networks has been working on updating a platform for hosting the information about the 33 000 seed samples conserved in Alnarp, Sweden.

BioEquality initiates WP 1

A literature study within the frames of our BioEquality project, with focus on bioeconomy, digitalisation and gender, will give answers about the state of research and a starting point for the work to merge the three areas. The long term goal is to provide a method manual for a more equal everyday life for the future employees in the Nordic bioeconomy.
