Soil as a carbon sink - join the seminars

We need to calculate the effects of our carbon capture activities to know the benefits of them. But which methods are there for such calculations? In this (the third out of four) seminar we will discuss the methods and models and how to improve them. The speakers are Dr Johan Stendahl, Prof Jari Liski and Søren Kolind Hvid. [More information about the third and fourth seminars](#)

Discussion forums for a gender balanced, digitalised bioeconomy

SNS welcome you to participate in three discussion forums on the topic "Gender perspectives in the digital bioeconomy". The fusion of two male dominated sectors - the digital sector and the bioeconomy sector - are not making a more gender

balanced sector, on the contrary, it seems. We will address the gender imbalance in the digitalised bioeconomy and in the end come up with a manual for students in the bioeconomy sector. Take part in the discussions, learn and share.

Cultured meat can be part of our everyday life

One of the main issues of cultured meat is the lack of dissemination. That is why the NKJ funded Cultured Meat Network did organize a 2-day workshop to gain more understanding of and dissemination of the concept.

Future foods for elderly in vivid discussions

The first workshop of the NKJ funded network Bridge Builders was held in March. The theme was "let's learn from each other".
