## Conference focus 2022: predators/climate change

Nordic Agri Research (NKJ) invites researchers, reindeer herders, stakeholders, government officials and representatives from the sector engaged in reindeer husbandry to **The Nordic Conference on Reindeer Husbandry 9-10 November 2022**. The conference will be held at NIBIO Svanhovd, Pasvik, Norway.

The topic of the 2022 conference is challenges to reindeer husbandry, in particular the impact of predators, as well as consequences of a changing climate in Sweden, Finland and Norway. The first day of the conference will focus on current status, policy and governance on predators, and the second day will be focused on issues connected to climate change.

More information will also be available in NKJ social channels: [Facebook](#), [Twitter](#), [LinkedIn](#)

## New Nordic Food: OPEN CALL on sustainability with children/young as target groups

This open call is an opportunity to strengthen networking at a strategic level among central Nordic institutions. We want to gather the forces in the Nordic food culture movement with a focus on children and young people!
