

GOAL

■ **THE PRIMARY OBJECTIVE** of the Nordic Joint Committee for Agricultural and Food Research (NKJ) is to promote and coordinate a knowledge-based agriculture and food sector in the Nordic countries. To meet this end, NKJ encourages and provides funding for joint Nordic cooperation within agriculture and food research, including forestry and fishery.

TARGET GROUP

■ **THE MAIN STAKEHOLDERS** for NKJ are the Nordic Council of Ministers, the national ministries responsible for agricultural and food research in the Nordic countries, the national research councils as well as Nordic researchers in the NKJ's area of responsibility within agriculture and food, and also within other sectors such as forestry and fisheries.

NKJ also cooperates with a wide array of Nordic institutes and bodies under the auspices of the Nordic Council of Ministers.

The NKJ was established in 1965 by the Nordic Council of Ministers.

■ **FUNDING OF NKJ** networking activities address Nordic agriculture and food related issues. The activity needs to include participants from at least three Nordic countries and your subject should generate results that are important in a Nordic context.

Your project will facilitate the exchange of knowledge, contacts between researchers in the different Nordic countries or sharing of research equipment and research results.

You'll need external funding to be granted by NKJ.

FUNDING

Funded by the
