The future of dairy production takes shape in Nordic research network

Two years of Nordic-Baltic collaboration on sustainable dairy have paid off. The NKJ-funded network ”Sustainable dairy for the future” is officially delivering results while empowering the next generation of talent.

– I hope this will form a foundation for future collaborative projects and new research possibilities, says the network coordinator associate professor Nina Aagaard Poulsen at Aarhus University.

Network progress

NKJ is elevating Nordic solutions at COP17

We are proud to take an active role at COP17! NKJ is hosting two key sessions putting the spotlight on indigenous rights and the development of perennial crops. By highlighting these crucial issues, we share valuable Nordic insights, amplify the Nordic voice in international cooperation, and contribute to global climate discussions for a more sustainable future.

COP17

19-30 OCTOBER 2026

Precision horticulture and biotechnology in focus as NTN Roadshow visits Latvia

During Nordic Testbed Network's Roadshow 4, the spotlight turned to Bulduri Technical School and the Latvian Digi-Garden Testbed. The event brought together innovators, researchers, growers, and tech developers from across the Nordic-Baltic region to explore the future of bioeconomy and sustainable agriculture. Highlights included:

- Live demonstrations of precision horticulture and automation
- Soil & plant-tissue analysis in action
- Controlled-environment agriculture (CEA) and tissue culture innovation
- Cross-border collaboration and testbed networking

Connecting testbeds, startups, and end-users is key to accelerating the digital transformation across our regional bioeconomy.

Full recap and photos

Networking and new research ideas in focus at the NKJ matchmaking event

Nordic agricultural and food researchers recently gathered for an inspiring matchmaking event during the NJF congress. Under the guidance of moderator Malin von Essen, participants – ranging from PhD students to professors – had the opportunity to establish new contacts, further develop their project ideas, and explore funding opportunities for future networking activities.
Thanks to all participants, and to NJF for nice cooperation!
